

Deprivation in Bury East - Index of Multiple Deprivation 2015

Source: Dept. Communities and Local Government

This analysis provided by Performance and Intelligence Team (SDU), Bury Council (December 2015)

The Indices of Deprivation 2015 provide a set of relative measures of deprivation for small areas (Lower-layer Super Output Areas, or 'LSOA's) across England.

Each area (LSOA) is ranked from 1 (most deprived in England) to 32,844 (least deprived in England). Areas are then divided into 10 groups (deciles) based on their rank - from Decile 1 (in the 10% most deprived in England) to Decile 10 (within the 10% least deprived in England).

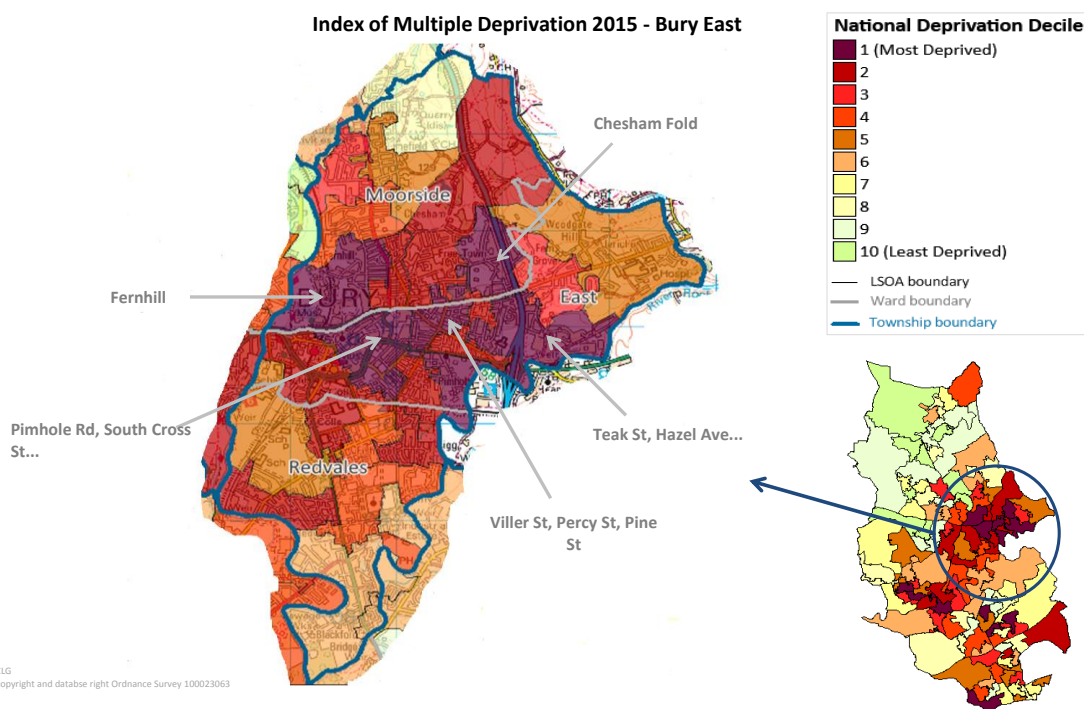

While there is no definitive cut-off for an area to be classed as 'deprived', it is common to look areas that fall within the most deprived 10%, 20% or 30% nationally.
