“Fun and Learn” is a planned play session for parents/carers and their children aged under 5 who have social communication needs – especially for children who have attention and social interaction difficulties (i.e. difficulties with eye contact, playing with peers, understanding what is happening around them, focusing on activities). Suitable for children with speech and language concerns and children with Down Syndrome.

Your child does not need a referral to the Speech and Language Therapy Service to attend this group. Please ring the Children’s Centre to book a place. Sessions run for 5 x weeks. Please attend all 5 sessions.
