Preparing for Adulthood

Beverley School were pleased to learn that Ellis Bowman, a student at Beverley School in 2017/18 has started a paid apprenticeship on the Therapeutic Care Ward at James Cook University Hospital. Ellis originally applied for a traineeship after completing a successful period of work experience at the hospital during his time at Beverley School. Ellis also worked with the travel training team to develop his independent journey planning skills. Well Done Ellis.

“You said, we did”

You said: Priory Woods School told us what they would like to do when they leave school and that they would like the chance to do more vocational activities.

Hollis Academy told us that they would like to do more independent living skills activities at school and that they would like more interesting transition activities to prepare them for when they leave school.

We did: We shared this with schools and colleges and we are going to use it to help us plan the courses that are on offer at post 16 and think about transition activities.

We are talking to Mr Wilson at Hollis about independent living activities in school.

We have also decided to produce this newsletter to let you know what feedback we have had from young people and what we are doing about it ...

Amelia's Apprenticeship

Recently appointed customer service apprentice Amelia is loving her new role at Middlesbrough's Multi-Media Exchange. Amelia has been getting to grips with a variety of tasks including photocopying files, following up learners, preparing exams and office administration tasks. Amelia, who has a hearing impairment, says “I am who I am, my hearing impairment is who I am, and that shouldn't affect me ... I am able to achieve things with the help and support from everyone around me”. Her advice to other young in the same position? “Nothing is impossible so just go and do it!”

If you have a story that you would like to be included in the next edition of the newsletter please contact Emma Cowley.
