

Healthy child appointments

Our health visiting teams support parents to develop close and loving relationships with their babies, improving well-being for all and enabling all children to reach their full potential.

We offer support with the transition to parenthood, mental health, infant feeding including breastfeeding, healthy weight, healthy nutrition and physical activity, managing minor illnesses, reducing hospital attendance/admissions and school readiness.

We offer extra support as needed, for example, with developmental concerns, post-natal depression, asthma, domestic abuse and emotional difficulties.

The health visiting administration team can be contacted on **020 3373 9983/9984**.

For BCG immunisations:

0 - 28 days: speak to your midwife

29 days - 1 year: Vaccination UK at newham.bcg@nhs.net or **01462 459595** or Vicarage Lane Health Centre on **020 8536 2070**

1 year and over: speak to your GP.

Please note that this information is subject to change.
