This has seen phenomenal improvements in their all-round learning, attainment and behaviour!

We help develop the child’s growth mindset so they have the confidence to take on many tasks. Our aim is to develop every child’s individual capabilities which are the essential requirements they need to succeed in education and in the work environment.

Our holiday club will have physical challenges such as level based play so they learn and achieve at their own rate and ability. They can also use problem solving and team work character skills tasks in our 50-50 mental challenges. Every child will be given the opportunity to become a responsible peer mentor where they can help support and supervise a range of sports activities.

All children will be able to earn LAB points every day which they control and manage themselves throughout their time spent with us!!
