Confidentiality

All clinics are confidential and free.
GP contact is at your discretion with the exception of Cytology (Smear) Screening results when a copy of the Smear Result has to go to your GP.

Clinics

Walk In clinics
(Including: Screening, Cytology, Oral and Injectable Contraception, Diaphragms, Condoms, Patches, Pregnancy Testing, Contraception Advice)
These are 'Walk-In and Wait'. Patients will usually be seen in the order they arrive. Waiting times vary depending on demand.

Long Acting Reversible Contraception
These procedures are normally appointment only and therefore some patients with pre-booked appointments may be seen before you.
If you have a booked appointment and are unable to attend please give at least 24 hours notice so that it can be offered to someone else.
Non attendance increases the waiting list.

Note: some sites are training clinics. If you would prefer not to have a trainee present during your consultation please advise a member of staff.

May 2015
What we do in RSH Clinics:

- Emergency Contraception
- Contraceptive Pills / Patches / Injections (Depo)
- Contraceptive Implants*
- Contraceptive COIL (IUD/IUS-Mirena)*
- Diaphragms / Condoms
- Contraceptive Advice
- Chlamydia and Gonorrhoea Screening
- Pregnancy Testing, advice and referral
- Cervical Screening (Smear)
- Referral for psychosexual counselling

* Please note that Implant Fittings & Removals and Coil (IUD / IUS—Mirena) Fittings are by appointment only and in most instances will require a prior consultation at any of our clinics.

Also, please note that we do not supply Yasmin and Dianette
