Well Baby Clinic

Wednesday mornings

9.00 – 10.45

Come along, weigh your baby & meet the Health Team

Every Wednesday, we have a Well Baby Clinic where you can bring in your babies and infants to get advice and support, generally around child development issues such as growth, feeding & speech. Its main purpose is to promote the health and well being of babies and children up to the age of 5 years.

If your baby is unwell or if you have specific health concerns, please see your GP.
